JoinFix®
All-Suture Anchor

JoinFix® All-Suture Anchor

Rotator Cuff Repair & Instability Repair

- 1.5mm Wilsuture® Ultra tape with soft & smooth feel provides broader footprint over tissue decreasing suture-tissue tear
- Ergonomic handle designed for surgeon comfort and ease of use
- Size: 1.4mm & 2.4mm

Rotator Cuff Repair

The 2.4mm JoinFix® All-Suture anchor fixation performance and small footprint makes it a great option for rotator cuff repair

Bankart Lesion Repair

The 1.4mm JoinFix® All-Suture Anchor is a great option for SLAP and Bankart repairs with implant performance superior to commonly used anchors

JoinFix All-Suture Anchors are intended to be used for soft tissue to bone fixation in:

SHOULDER

Bankart lesion repair, SLAP lesion repair, rotator cuff repair, biceps tenodesis

HIP

Acetabular labral repair

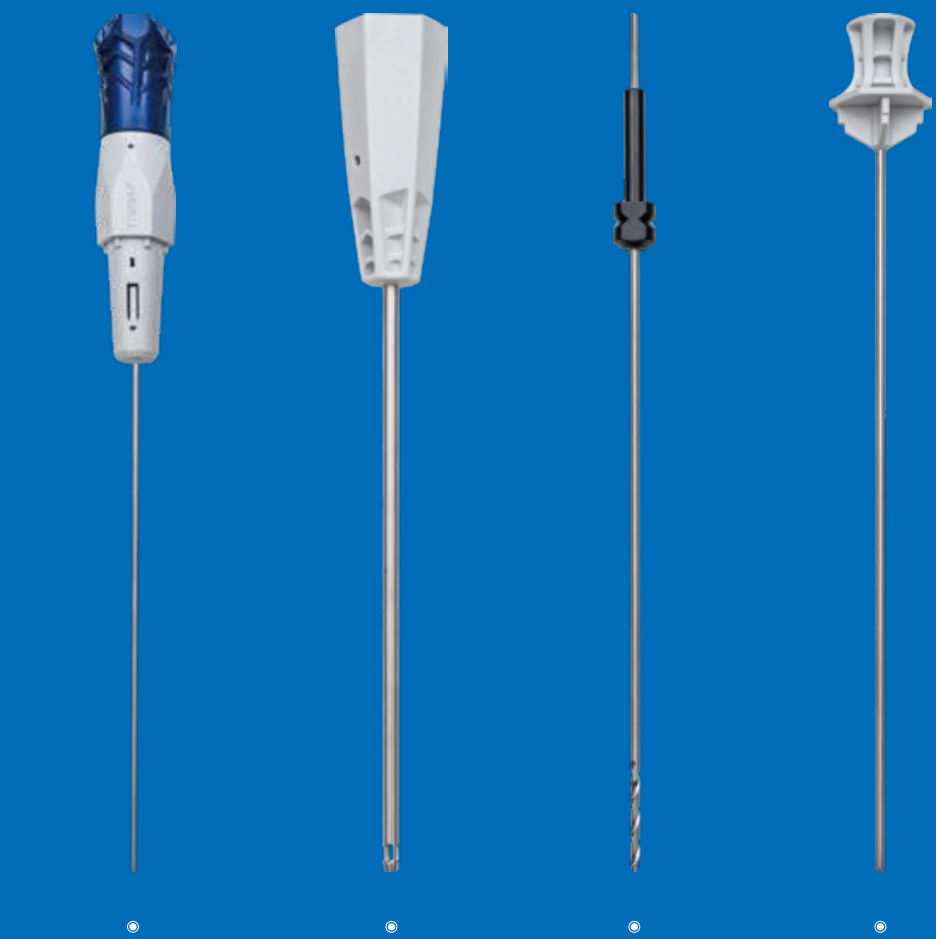

KNEE

Medial collateral ligament (MCL), Lateral collateral ligament (LCL), patellar tendon repair

ANKLE

Medial/lateral repair and reconstruction

Radially expanding

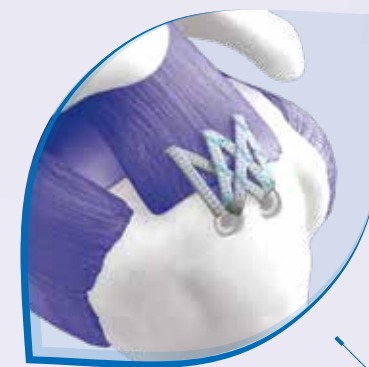

JoinFix® Plus All-Suture Anchor

Rotator Cuff Repair & Instability Repair

- Radially expanding offers highest fixation strength and ultra-low displacement
- Providing the benefits of a small, soft anchor with the characteristics of traditional anchor designs
- Implanted material decrease the risk of foreign body reaction, an ideal combination of strength, biocompatibility and inherent radiolucent characteristics
- Ergonomic handle designed for surgeon comfort and ease of use, save surgical steps and time
- Size: 1.7mm & 2.7mm

Crown Spear 2.7mm

Fish-mouth Spear 1.7mm

Rotator Cuff Repair

The 2.7mm JoinFix® Plus All-Suture anchor fixation performance and small footprint makes it a great option for rotator cuff repair

Bankart Lesion Repair

The 1.7mm JoinFix® Plus All-Suture Anchor is a great option for SLAP and Bankart repairs with implant performance superior to commonly used anchors.
